

Anaerobic Plane Seal Series

Anaerobic Plane Seal Adhesives are widely used in the micro gap plane sealant of Mechanical Parts .
Such as the plane seal of the Flange and the End Face of the Mechanical.

- FS-1510 Red paste, rigid rubber layer , high temperature resistance up to 204 °C
- FS-1515 Purple paste, general purpose flexible rubber layer, good solvent resistance,
- FS-1518 Red paste, flexible rubber after curing, good fluid resistance,
Apply to aluminium and aluminium alloy surface.

Packing details:
- 300ml/catridge 30pcs/carton
- 50ml/ tube 100pcs/carton

Application scenario

Item No.	Color	Max Filling Gap (mm)	Max Seal Oil Pressure	Working Temperature(°C)	Cure Time (25 °C) Initial/Whole
1510	Red	0.25	36	-54~+204	1~2 hrs/24 hrs
1515	Purple	0.25	34	-54~+150	1~2 hrs/24 hrs
1518	Red	0.25	36	-54~+204	1~2 hrs/24 hrs
